

<u>Ankle Brachial Index</u>	
>1.3	Abnormally high, calcified vessels
1.0-1.3	Normal
<0.9	Arterial disease
0.6-0.8	Borderline perfusion for healing
<0.5	Severe ischemia, requires revasc.
<u>Toe Brachial Index</u>	
>0.7	Normal
<0.7	Diminished
<u>Toe Pressure</u>	(digital arteries rarely calcified)
>60 mmHg	Considered normal
<60 mmHg	Progressive ischemia
<u>Skin Perfusion Pressure</u>	Microvascular test
>40 mmHg	Considered adequate
<40 mmHg	Decreased pressure
<u>Transcutaneous Oxygen Measurement</u>	Microvascular test
> 40 mmHg	Considered adequate
< 40 mmHg	Progressive ischemia
